The British gunboat Condor has been stationed outside the harbor to guard the entrance. Admiral Seymour has gone on board the Invincible, which will move into the outer harbor along-side the Monarch. The Blittern now lies opposite the Ras-El-Tin palace. The ministry continue to declare their resolve to resist. They have taken precautions to insure the safety of the Khedive in the event of troops being landed. Antol Pasha was yesterday formally autimoned to Constantianople by the Sultan, but refused to obey. The two aldidecamp of the Sultan who recently arrived here left for Constantinople last evening, accompanied by Ahmed Essad and Lebib Pasha, two members of the mission of Dervisch Pasha. The secret negotiations which were proceeding are therefore regarded as broken off. The British man-of-war Dragoon hasarrived at Susz.

ALEXANDRIA, July 9.—From a steamer lying in the inner harbor solders are distincily seen digging trenches, and carrying shot from one fort to snother. The English consulate will go on board ship to-night.

LA VALETTA, MALTA, July 9.—The iren-clads Agincourt and Northumberland, of the English clannel squadron, have started for Limasol. Cyprus, with two battalions and a company of engineers. The Ministant, with a slege train of twenty guns, and the Nerlessu, with alores, have also salied from this port.

CONSTANTINGLE, July 9.—Considerable surprise is expressed here that General Wallace, the Aimedian minister, has again been summoned to the palace. Vestigation to be Held.

Whreling, W. Va., July 9.—Five additional bodies found here have been identified. Seventeen bodies have been found at other points—one we Moundsville, one at Benwood, one at Portland, two at Rush Run, three at Brailiant, one at Lagrange, four at Short Creek, and four at Wellsburg. An affecting incident was reported in connection which was the pet of his life, was found with the body, so exhausted it could no longer bark. It was with him on the boat, but how it found the body is a mystery. It was sent to East Liverpool with the body. More bodies were recovered by a search party of forty-five men from East Liverpool in fifteen skiffs.

The steamer Stockade passed up with an unidentified body for Wellsville. There can hardly be any more strangers missing as among the flay-one bodies found only one was not on the list of missing. The body of Frank Smith, the third of that family, have been recovered at Tiltoaville, ten miles below the wrock. Maggle Shields, of East Liverpool, reported lost, was not on the boat. A train which left Belisire at 4 p. m. for the wreck on the way took aboard the bodies of John Prosecr, Stewser: Pipes, Henry Marker, and Frank Smith. The steamer Annie L. passed up at Brilliant with at least two hundred excussionists, and the Cy Lucus with the same number. Their permits allow one hundred and fifty. Captain Thomas is at home at Clarington. His reason has left him. Three thousand people are on the grounds near the wreek. The bodies recovered number fifty-one, and the missing six. Possibly the missing may be found when the boat is raised.

THE SCHUYLKILL POISONED.

the Water Supply Threatened.

PHILADELPHIA, July 9.—Thousands of dead fish are lying on the island, against the piers, and PHILADELPHIA, July 9.—Thousands of dead fish are lying on the island, against the plers, and along the banks of the Schuylkill River from Reading east, and thousands of other fish are struggling in the water, which has been poisoned near Reading by the pumping out, it is said, of an abandoned copper mine. The change of water was first noticed Friday evening. Saturday morning the water looked like soapsuds, and late Saturday afternoon it was of a deep blue color. There is no doubt as to its being poisoned, and many residents have stopped using their hydrants. Hundreds of people have visited the river banks, and there is much indignation. The reservoir here is now fell, and if nothing unforeseen occurs no water from the Schuylkill will te pumped into it until next Friday, before which time it is hoped the water will become pure again. One of the theories advanced to account for the pollution is that the Paris green scattered over the fields by farmers to kill polato-bugs has been washed into the river by the recent rains. The unhealthy condition of the water was discussed by the park commissioners at a meeting Saturday afternoon. It is feared that this city will soon be suffering from the same condition of affairs as the people of Reading and Pottstown, and it is proposed to take immediate action to prevent such a misfortune. There is much excitement here over the prospects.

President Arthur has violated, his promises and set at anught the trinciples of the Republican party. He has removed many fathful and competent officers without cause and while in commission, thus not only violating his promise but, as I believe, the Constitution and the laws as well." Now, the people of Massachusetts, when they come to compare these official returns with Mr. Bayne's appeal, will find to their surprise that Mr. Arthur has removed no officer in that state; that of sixty-two appointments made by him fifty-one were reappointments and only eleven were new appointments to fill vacancies. In South Carolins—another of Mr. Bayne's statements, two of which were reappointments and wo new appointments to fill vacancies. In Virginia, again, where, according to reports industriously scattered through the press, the President was "cutting off official heads in the interest of General Makone,"

was cutting an omeian nesses in the interest of General Mahone,"

THERE HAS BEEN ONE REMOVAL, and that for cause, and besides this only nine appointments made by Mr. Arthur altogether, one of which was a reappointment. In Tennessee, in the manner, there have been no removals, and only eight appointments in all, four of wnich were resappointments, the other four to fill vacancies by the expiration of terms of office. It is not worth while further to analyze the tables which follow. Everybady can do this for himself. The totals are plain enough. In nine months the President has made \$74 appointments to office; of these \$25 were plain enough. In nine months the President has made \$74 appointments to office; of these \$25 were place, falling vacant by the expiration of the terms of office of the occupants, and where, by law and custom both, the President not only may, but is bound to nominate the persons be regards as most capable and trustworthy, whether they be the old occupants or new men.

A friend of the President said to-day to your correspondent: "I speak that which I know when I tell you that the President has removed or refused to reappoint at least as many Grant men, so called, as anti-Grant men, and that there is no foundation for the charge that he has specially favored the Stalwart wing of the party, nor can It be truly said that he has anywhere removed a competent man to put in one less competent. as Mr. Bayne asserted, and has been very freely charged, to stalwartize the party. no one can give an instance, I am confident, where an officer has been removed on this issue. The President has made it a rule to take the advice of Representatives and Senators in the matter of appointments to office, his object—making sure first that the public service shall be honestly and ably conducted—has been to harmonize and strengthen the party in every State, and to effect that he has freely consulted with members of Congress. Finally I think the public will see that where a President during so long a period has made so few removals—five out of 276 in New York, and two of these for cause five only in Pennsylvania, and three of these for cause, that is to say, for open misconduct in office—he must be supposed to have fairly and bonestly used the large discretion which is properly placed in his hands by the Constitution. Mr. Butterworth gave the following return as an official statement of appointments and removals by President Arthur in the different States and Territories:

regarded as injurious to Mr. Atthur.

IT TURNS OUT, BY THE WAY,
that Mr. Bayne's only particular statement in regard to Mr. Arthur's removale was mistaken. He said that 24 internal revening collectors had been removed, but only 15 have actually been displaced out of 126. In relation to appointments to office, as well as to some other matters, President Arthur has been industriously and perimacjously misrepresented, and almost entirely by journals.

A FEW PLAIN TRUTHS

THE PRESIDENTIAL APPOINTMENTS.

The Hon. Tom Bayne's Falsehoods in the Honac Laid Bare by Truthful Figures—
The Use of the Appointing Power by the President Defended.

THE President Defended.

THERE HAS BLEEN BO CONCEALMENT.

There has been to decourage personal applications absolutely and to consult consulty the wishes of Republican Representatives and Senators as to appointments in their districts and States, requiring of them the assurance that the men they recommend are honest and capable, and requiring also a reason where it is desired by them; that an officer whose term has expired, shall not be reappointed. That under these circumstances his appointments to office will be of such a character as to strengthen the political party of which he is a member is evident. But to say that they were designed to favor one wing of the party at the expense of the other would be to say that the bulk of Representatives and Sensions belonged to that one wing, which those who attack Mr. Arthur deny. Of course Mr. Arhur's theory of appointments to office will not please those civil-arrives reformers who insist on absolute permanence in in office, and on the complete separation of the civil service from politics. He believes that THERE HAS BEEN SO CONCEALMENT.

in office, and on the complete separation of the civil service from politics. He believes that

CHANGES MAY BE USEFUL

Where a man has been a long time in office, and believes that provided no harm comes to the public service it is as well to have in important public office an influential and skilling politician, who shall be useful to the party. He believes, what General Gardied also wrote in his letter of acceptance, that the President ought to consult members of Congress in the matter of appointments. Whoever chooses to attack these positions ought, however, to do no injustice to Mr. Arthur. He has given the least importance and attention possible to the question of appointments to office consistent with his theories, and as a consequence of his methods Washington has selltom seen so few delegations and office-seeking bands as have been seen here the past winter and spring. The whole nauseous business has been carried on with the decorum and moderation which come from system, and the President deserves credit for that and ought not to be misrepresented.—New York Herald of Saturday.

SOCIAL INCIDENTS.

Pleasant Musicale and Other Personal Mention.

A pleasant musicale was held last evening at the re-idence of Mr. E. J. Whipple, on K street, in honor of Mrs. Blattmer and Mr. Jecko, of St. Louis, who are visiting Washington for a few days. Among the participants was Mrs. Captain Converse, who has recently returned from Eurore, where she was for several years under the tuition of Lamperti, the celebrated teacher of the volce. Mrs. Converse is a sopeane of remarkable purity and range, which has been highly cultivated, and she will prove a valuable addition to the musical circles of this city. Mr. Whipple and Mrs. S. H. Jecko also gave several choice selections.

While he is on duty he will have the rank and pay of lieutenant-colonel, an increase of \$500 per annum, as he has been over twenty years in the service.

Lieutenant-Commaniler George W. Pigman, U. S. N., who is in the city with his family visiting Mrs. Pigman's mother, on Fourth street, will be ordered to duty in the Hydrographic Office in September.

Mrs. Frank A. Edwards, wife of lieutenant Edwards, First Cavalry, left Walla Walla June 28 for Fort Klamath, on Klamath Lake, near the southern line of Oregon, to join ber husband, who is an old resident of Washington, and was appointed from here.

Lieutenant Samuel Rodman, jr., First Artillery, and his bride are at his old home, at New Bedford, Mass.

Horrible Murder in Chicago

CHICAGO, July 9.—About 1 o'clock this morning Joel Prescott, an old and respected citizen, was found lying in a doorway in the basement at the formal lying in a doorway in the basement at the rear of his bathing-house on Desplaining street, his brains besten out by some blunt instrument and his pockeds turned inside out. He was alive, but died soon after. The object was evidently robbery, but the murderer got nothing, as Prescott had placed a considerable sum of money and his watch in a secret place. Four persons were arrested, but there is apparently little evidence against them. Two men had blood stains on their clothes, for which they gave apparently consistent accounts. The other two are colored—one employed about the premises, the other recently discharged.

WORK OF CONGRESS.

THE CONDITION OF THE BUSINESS.

The Shape in Which the Appropriation Bills Are at Present-The Question of Adjourn-ment Not Yet Becided Upon, Probably the 1st of August.

The Senate will to-day continue and probably complete its consideration of the river and harbor bill, which has now nearly reached the stage of final action. The committee amendments have all been gone through with and the offering of general amendments is in order. Among these are the Potomac flats improvement and the Delaware and Maryland ship canal project. The bill will be disposed of not later than Tuesday.

IMMEDIATELY APTER THE PASSAGE of this measure the House bill for the reduction of internal revenue taxation will be called up and

nternal-revenue taxation will be called up, and pressed for passage with the amendments reported from the Finance Committee last Wednesday, and those which have since been agreed upon by the Republican caucus to effect important reduction in the tariff duties on sugar, Bossimer steel, and hoop-iron. The number of days likely to be con-sumed in general debate on the wide range of subjects thus suggested, and in struggles over an unlimited number of amendments that may be offered by individual Schators cannot accurately be predicted, but although there are intimations of a proposal on the part of many Democratic member to attempt TO SECURE A REVERSION

of numerous features of the internal revenue and tarin systems far beyond the limits proposed by the Republicans, the general impression is that the bill will be passed during the present week, substantially in the shape agreed upon by the Re-publican cancus. It is also thought that the kull-goods bill will be passed this week, and that the consideration of the naval appropriation bill may be commenced by the Senate at perhaps an early a date as next Friday. The last-named measure is now before the Senate Committee on Appropri ations together with the

ations together with the

and committee action upon both of them is expected to be completed within the next two or three days. The legislative, executive, and judicial appropriation bill is still in the bands of the committee of conference appointed to adjust the points of difference between the two Houses, but the controverted issues are not of great importance, and a final agreement will undoubtedly be reached early in the week.

THE GENERAL DEFICIENCY BILL, THE GENERAL DEFICIENCY BILL.

which now awaits action by the House of Representatives on the Senate amendments, will also be placed in conference during the next few days, and the sundry civil appropriation bill is expected to reach the point of passage by the House by Tuesday evening, or at the latest on Wednesday. To day's session of the House is assigned for DEFRICT OF COLUMBIA BUSINESS.

The conference report of agreement on the bank

The conference report of agreement on the bank charter extension bill may, however, be brought forward for adoption before the adjournment to-day, and in any event will be laid before the House the day following. The programme for the latter part of the week is yet to be determined upon by the Republican undority, and a caucus for that purpose will probably be held before the pending study civil appropriation bill shall have passed from consideration in the House. There is atill some talk of endeavoring to obtain action on two or three of the remaining contested-election cases before the close of the session, but in view of the absence of a number of Republicans and the recognized impracticability of seating any one of the contestants without the presence of a Republican quorum the House will probably devote itself, after passing the sundry civil bill to the mass of miscelinaeous business NOW ON THE SPEAKER'S TABLE

and on the calcular of bills reported from House
committees. The action of the Republican senatorial caucus on the tax bill and the letsurely
methods displayed by the Senate during the last

estimates of the probable duration of the session;

that of 1872, upon which the committee based its report in favor of seating Mr. Majors. Several depositions have been received, and on Saurray Mr. Majors was granted a hearing. Members of the committee say, however, that no new facts have been develope : that it is a clear case of deception, and the only thing to be determined is who is responsible. Mr. Valentine, the only Nebraska Representative in the House, pronounces the census report, upon which the committee based its action, and which was duly certified to as giving the population of the State in 1872, to be that of 1874. The report of the committee is awaited with some anxiety, especially by the members of the minority of the committee who discovered the fraud. The report in favor of scating Mr. Majors was recommitted to the committee several weeks ago.

MORE DENIALS.

Drs. Reyburn and Marphy Deny the State ments of the Rev. Hicks.

On Saturday night Dr. Hicks was interviewe on saturacy night by a reporter of the Cupital. In the course of the conversation, as reported in that journal, the reverend doctor remarked that he had found Drs. Sowers and Hartigan interfering with Dr. Lamb at the autopsy, and instructed the latter to disrogard them and go ahead with his report. In view of this publication the physicians alluded to yesterday, received for multivation, the followin. terday received for publication the followin

Washington, D. C., July 9, 1882.

Having seen the statement of Rev. Mr. Hicks in this morning a Capaca, and being present at the autopsy from the beginning, we hereby emphatically say that neither Dr. Sowers nor Dr. Hartigar interposed a single objection or uttered a word it any form or retarded in any way the progress o the autopsy; and we do not believe that any medical gentleman present would be willing to say anything to the contrary.

Drs. Sowers and Hartigan are hard at work upon their report. The roport will probably be roady for the printer by the latter part of this week. Neither physician feets at liberty to give an inking as to the deductions they have reached, preferring to lay the outre matter before the public at one time, It is understood, however, that it will not entirely agree with Dr. Lamb's opinion, and will be prefaced by an explanation of all the facts regarding its authors connection with the autopsy, and the events which have since occurred.

The first sermon in the new audience-room of Grace M. E. Church was preached by Bishop Andrews, yesterday morning, at the 11 o'clock service. This church was started about twoive years go as a mission branch of Wesley Chapel. Its ago as a mission trade of the seconds, and later Mr. George W. Riggs donated the ground at the corner of Ninth and S streets, where a frame Mr. George W. Riggs donated the ground at the corner of Ninth and S streets, where a frame building was erected, and subsequently a large brick structure, in which services were held on the ground floor, the upper floor being divided into compartments, which were rested for achool purposes. About a year ago the schools vacated the premaies, and the church people were encouraged to make efforts to use the whole of the building for the purpose for which it was originally intended. The result is that a complete charge has been made in the appearance of the place, a parsonage has been built on the lot, and the church building itself is one of the most attractive of the Mcthodist churches of 18 class in the city. The audience-room has been completely furnished, and is very next and attractive. The sermon by Bishop Andrews was a scholarly effort, and was intently listened to. A choruschoir, under the leadership of the Galliher broiliers, assisted by Mrs. Pope and others, rendered excellent music. In the afternoon the first monthly meeting and election of officers of the new missionary society was held. The Rev. Mr. Hague presided, and the attendance was quite large. Handsome buskets of flowers ornamented the altar. A constitution was adopted, and under it the following officers were elected: President, Mr. Warren Choate; vice-president, Mr. George Gallier; accretary, Mr. Edward Richardson, and tossurer. Mr. Charles Mcdford. Rev. A. Ashley, of Union M. K. Church, then made a short address. The proceedings were interspersed and closed with stugging.

The Star-Route Cases.

As has already been published in this paper, the grand jury will meet to-day. It is rumored, and the report seems to have origin-It is rumored, and the report seems to have originated from good sources, that the new indictment will be connected with the Saulsbury contracts on the Louisians and Texas routes, and that, in addition to Thomas J. Brady, Stephen and John W. Dorsey, and the aiready indicted star-route defendants, a prominent United Saistes Sanator, John A. Waish, the mail contractor, and others will be included in the toils of the law. Rumor further says that Mr. Walsh will be used as a witness against his fellow-conspirators.

that Mr. Waish will be used as a witness against his fellow-conspirators.

At a meeting of the star-route witnesses held in this city Saturday resolutions were passed thanking Senator Hill, of Colorado, for introducing a bill fixing the compensation of witnesses at \$2.50 per diem and seven cents mileage, and to the other Senators and members for supporting the joint resolution.
